Foreword from the Founding President

Dear Friends, Partners & Colleagues,

Since the creation of Ready for Development (RfD) in September 2023, the organization has been working tirelessly to contribute towards the economic and social empowerment of communities through concerted, decent, and sustainable actions. We have been proud to have collaborated with many development leaders and civil society organizations to help identify issues and explore avenues to address them.

As we evolve in our mission of building sustainable livelihoods and creating assets for communities, challenges and opportunities will surface. But be rest assured. We will learn from our experience and re-examine how philanthropy can help develop solutions for some of our most pressing issues.

As we move into the year 2024, I encourage everyone to continue to find ways to build and strengthen this special place we all call home. In the pages that follow, you will get the opportunity to discover what we stand for, those we work with, the communities we serve, and how we are stepping forward in service and leadership.

Once again, thank you for your support, and I look forward to working together in 2024.

OBIA MBONI Bryan

Founding President
